### Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Drawings*

This application has been filed with informal drawings which are acceptable for examination purposes only. Formal drawings will be required when the application is allowed.

### *Specification*

The use of the trademark Velcro and Ace has been noted in this application. It should be capitalized wherever it appears and be accompanied by the generic terminology.

Although the use of trademarks is permissible in patent applications, the proprietary nature of the marks should be respected and every effort made to prevent their use in any manner which might adversely affect their validity as trademarks.

### *Claim Objections*

Claim 3 is objected to. In line 2 of the claim it appears that "over" should be changed to --cover--.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless --

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3673

Claims 1 to 5, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Koch (4,393,520). Koch shows an elbow pillow that is used for the purpose of supporting an infant in a cradling position. The elbow pillow 10 comprises two pillows 12 14 which are hinged together along a seam line 20, with each pillow having an elastic strap 16, 18 attached across the width of the pillow. The straps are used to hold the pillow in place upon a user's arm such that it spans the elbow, note that in Figure 5 an embodiment is shown in which the straps are formed as halves which can be adjustably connected to one another by hook and loop fasteners. Each strap can be considered to be a sleeve, since the width of the sleeve is not specified within the claims.

#### *Allowable Subject Matter*

Claim 6 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

#### *Conclusion*

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Chase, Lohman, Butler, and Bassett et al show elbow pads which are secured by elastic sleeves or straps which are of particular interest. Cadden, Thomas, Koy et al, and Colombo show infant cradling type pillows which are of general interest.
